

Wirral Whiskers Mewsletter

Welcome to my second newsletter of the 2020.

This year has been fantastic with the launch of my house sitting service. I had 8 nights in Liverpool looking after 2 dogs, 2 lizards, a tortoise and a snake. This service is for you if you have lots of pets or dogs.

Hello Spring

February was quite a wet month. I had a few walks in rain, hail, sleet and even snow.

One of the dogs, Ash, is pictured above. He always had a puddle break during play time.

I always have towels with me so I can dry pets off before entering the house. With Ash, I had to have a bigger towel than normal!

When going on a dog walk, I want to make sure that the pet is happy. This varies depending on their usual routine. A walk always includes being allowed to sniff and follow their nose.

Pawsome Fun

My mission is to make my visits fun and interesting for the pets.

In January and February I purchased some new toys for my 'entertainment system'.

The picture above is Luna enjoying my ball track. This track is great as it is sloped inside, peaking at each end. This means if the cat hits the ball, it reacts more than expected and change direction.

If the pet likes it, I leave it there until my final visit. Before I go, I get the cat interested in the toy so they are entertained even after I leave.

Pupdates and events

13th March, 7.30pm
Port Sunlight River Park Talk
Heswall Hall
Listen to a talk about the lovely park and the wildlife.
